WELCOME MESSAGE

Founded in 1984, GSAT initially focused on the learning of the Greek language for all primary levels, up to GCSEs and A levels as well as Adults Classes.

At GSAT, we are committed to offering comprehensive Greek language learning for adults. Our adult education program is designed to accommodate learners at various stages of their language journey, from beginners to intermediate and higher-level students. We understand that adult learners come with diverse needs and schedules, which is why we provide flexible learning options to suit their lifestyles.

We offer online classes on Wednesdays and Thursdays, providing a convenient and accessible way for adults to learn Greek from the comfort of their homes. These classes are conducted through interactive platforms that facilitate real-time engagement with instructors and fellow students, creating a dynamic and supportive online learning environment.

Starting in September, we are thrilled to introduce on-site Wednesday classes for adults. These in-person sessions will take place at our school, offering a more traditional classroom experience for those who prefer face-to-face interaction. Our on-site classes provide the opportunity for immersive learning, where students can practice speaking, listening, reading, and writing in a collaborative setting.

To ensure a comprehensive and effective learning experience, we use a wide range of resources and platforms. Our curriculum incorporates modern teaching materials, multimedia resources, and interactive exercises to enhance the learning process. Our experienced instructors are passionate about teaching Greek and are dedicated to helping each student achieve their language goals.

Whether you are starting from scratch or looking to advance your existing skills, our adult classes are designed to support you every step of the way. We aim to make the learning process enjoyable and rewarding, fostering a love for the Greek language and culture. Join us and embark on your journey to mastering Greek with GSAT, where education meets passion and dedication.

Greek Language for ...

intermediate

Course Overview:

This intermediate Greek course is designed for students who have completed our Greek for Beginners course or have some prior experience with the Greek language through formal or informal lessons. It is also suitable for students who have completed the first level at our school. This course aims to further develop students' vocabulary and communication skills, enabling them to competently read and understand short texts drawn from everyday situations. The course focuses on enhancing students' understanding and ability to respond to conversations effectively. Like the Beginners level, the Intermediate level course spans 38 lessons, starting in September and concluding in July. At the end of the course, a small assessment will be conducted to baseline learners' needs and measure their progress.

Language Development:

The course will cover all strands of language with a focus on:

- **Listening and Responding:** Enhancing comprehension and appropriate responses in various contexts.
- **Speaking:** Improving fluency and accuracy in spoken Greek.
- **Reading and Understanding:** Developing the ability to comprehend short texts from everyday situations.
- **Writing:** Refining writing skills through diverse tasks.

Course Materials:

Students will continue using the "Communicate in Greek" textbook, as well as "Klik in Greek Level B1," supplemented by a combination of online and text resources. The course will introduce more complex sentence constructions and advanced grammar, with particular emphasis on listening and oral skills.

Grammar:

The grammar component will cover:

- **Plurals and Singulars:** usage in different contexts.
- **Form:** Understanding and applying various grammatical forms.
- **Cases:** Expanding the basic use of cases in Greek.
- **Adjectives:** Usage in both singular and plural forms.
- **Tenses:** Present, Past, and Future tenses.
- **Speech:** Direct and Reported speech.
- **Numbers:** Understanding and using numbers 20-100.
